8	UNITED STATES DISTRICT COURT	
9	EASTERN DISTRICT OF CALIFORNIA	
10		
11	UNITED STATES OF AMERICA,	Case No. 1:20-CR-00238-JLT-SKO
12	Plaintiff,	ORDER RE: DECLARATIONS OF
13	V.	AUTHENTICITY UNDER FED. RULES EVID. 902(11)
14	KENNETH BASH, et al,	
15	Defendants.	
16		
17	Having considered the arguments of counsel and the authorities cited by the defense and	
18	having reviewed the declarations of the custodians of records proffered by the government	
19	provided in response to subpoenas issued to T-Mobile (Bates # BASH_00017627,	
20	BASH_00023833, BASH_00022177, BASH_00017109, BASH_00022155) and to Google (Bates	
21	#BASH_ 00017494-BASH_00017496, BASH_00020035- BASH_00020038), the Court finds the	
22	associated documents are determined to be authentic without further evidentiary showing.	
23	Because they meet the requirements of Fed. Evid. Code Rule 803(6), the Court finds also that	
24	these documents are business records.	
25	Having considered the arguments of counsel and the authorities cited by the defense and	
26	having reviewed the declarations of the custodians of records proffered by the government	
27	provided in response to subpoenas issued to Meta (as to account identifiers 100010052803775,	
28	1654490352, 100075005176426, 100077988640295) and Google (Bates # BASH_00046618-	

Bates # BASH_00046622), the Court finds the associated documents are determined to be authentic without further evidentiary showing. As discussed at trial, evidence such as who set up these accounts, who controlled them or who used them, etc., is not determined by this order and, the finding here as to these accounts does not alone demonstrate their admissibility. Rather, the proffered declarations show only that these records are authentic "snapshots" of these accounts for the relevant period as produced by Meta and Google. IT IS SO ORDERED. **January 25, 2025** Dated:
